

## Resolution of the United Corpus Christi Chamber of Commerce in Support of Texas Water Strategy Implementation

**WHEREAS**, the United Corpus Christi Chamber of Commerce recognizes the critical importance of a long-term, sustainable water strategy to support Texas' economic growth, business development, and quality of life; and

**WHEREAS**, ensuring a reliable and competitively priced water supply is essential for businesses, communities, and industries across the state, particularly in times of drought; and

**WHEREAS**, the State of Texas must continue implementing and investing in comprehensive water strategies, including conservation, surface water and groundwater management, aquifer storage and recovery, inter-basin transfers, rainwater harvesting, desalination, and reuse projects;

**THEREFORE, BE IT RESOLVED**, that the United Corpus Christi Chamber of Commerce urges the 89th Texas Legislature to prioritize and support policies, funding, and initiatives that advance the implementation of Texas' water strategy to meet the state's long-term needs.
